This Warranty does not cover glass breakage for any reason. This Warranty does not apply to special glazing.

7. Argon Gas. For Products manufactured by Finestra that contain argon gas, Finestra injects argon gas during the production of the Product. Finestra's process is verified by certification and maintained by advanced quality control measures. It is known that argon within the insulating units dissipates over time. The manner of use, conditions of installation and handling will affect the rate of dissipation of argon. The migration of argon is a natural process that occurs over time and is not a defect. Finestra makes no warranty or claim regarding the rate of dissipation of argon or the amount of argon remaining in the Product at any time after manufacturing.
8. Corrosive Environments. "**Corrosive Environment**" means any State which touches an ocean or saltwater body. In Corrosive Environments, there is a greater than normal risk of corrosion or deterioration, which shall not be Finestra's responsibility. In the event of repair or replacement pursuant to the terms of this Warranty, the original Warranty shall apply to the repair of the replacement Product and will extend for the balance of the Warranty period in effect at the time the Products were proved defective.
10. Maintenance & Cleaning. The surfaces of Finestra Products will over time collect a layer of surface dust. Normal dusting with a damp cloth will remove this accumulation of surface dust. A mild solution of household cleaner, such as liquid dishwashing detergent, may be used to clean the Products; do not use harsh abrasives on vinyl. Sill, tracks and weeps should be cleaned monthly. This Warranty shall be null and void in the event that these cleaning procedures are not followed.
11. Labor. This Warranty applies to the Products only and is not a labor warranty. Finestra is not responsible for any costs incurred in the removal, replacement, installation, re-installation or repair of Products or adjacent materials.

There can be different local and state codes that apply in each location. It is important to check your local and state requirements prior to installation. Finestra does not oversee any job site installation inspections, nor does Finestra install any Products. Finestra is not responsible and cannot be held liable for any installation practices or any damage to the Product or property during or after installation as a result of improper installation.
14. Payment; Proof of Purchase. This Warranty is null and void in the event that the original purchaser did not pay in full for the Products supplied. Verification of the purchase is required for this Warranty to be applicable.
